

SAY HELLO TO

The logo features the word "smartflo" in a bold, italicized sans-serif font. "smart" is in black and "flo" is in red. The text is centered within a large, stylized red graphic that resembles a thick, continuous line forming a partial circle or a stylized 'C' shape. The background of the entire page is white, with decorative red wavy lines in the top right and bottom left corners, and faint grey wavy lines behind the central logo.

USE CASES

TIME TO RE-IMAGINE YOUR WORK WITHOUT BOUNDARIES WITH

**EDUCATION**

BACKGROUND: A mid-sized company in the education sector is facing following challenges:

- Inability to manage enquiries for new courses as their sales and support staff is working remotely
- Inefficient manual fee collection system

HOW SMARTFLO CAN SOLVE THEIR CHALLENGES:

- Virtual PBX enables intelligent call routing to relevant staff in admission, sales or support team. Routing can be done to mobile or landline numbers thus enabling anytime, anywhere communication
- Click2Call Solution allows instant connection to subject matter experts like teachers to solve queries
- Missed Call Solution allows calendarized SMS based reminders for fee collection

**BFSI**

BACKGROUND: A mid-sized non-life insurance organization is facing following challenges:

- How to scale up leads?
- How to provide 24/7 customer service?
- How to ensure customer privacy when agents work remotely?

HOW SMARTFLO CAN SOLVE THEIR CHALLENGES:

- Hosted Call Connect offers an integrated solution which allows efficient lead management by way of intelligent call prioritizing, calendarized call back, sticky agent feature, multiple and dynamic caller IDs for better pick-up rate
- Hosted Call Connect enables routing of calls to customer care agents who are available thereby enabling anytime, anywhere communication
- Missed Call Solution offers IVR setup and automated call backs
- Customer privacy is ensured by number masking

**IT / ITES**

BACKGROUND: A mid-sized BPO with 500 agents, working across multiple processes, like customer service, lead management, vendor on-boarding and document verification is facing following challenges:

- How to scale up the business outcome across multiple lead generation campaigns and customer service processes?
- How to ensure security of customer data while agents work from home?

HOW SMARTFLO CAN SOLVE THEIR CHALLENGES:

- Hosted Contact Centre offers complete call center operations management with features like blended queue management (inbound and outbound, progressive and preview dialing), built in CRM integrations, agent panel, call barging, prioritizing call back, sticky agent, ring-me anywhere, sentiment analysis and detailed analytics and reporting
- AI manages call routing with smart IVR menus
- Customer privacy is ensured by number masking

E-COMMERCE
