Avaya 1416 Digital Telephone

PHONE KEYS

	Soft Keys - These 3 keys below the display have variable functions. When the key is active, its function is indicated by the text label above it. The left hand key is usually linked to the **OK** key.
	Message - This key is used to access your voicemail system. By default this uses a series of menus on your phone's display.
	Navigation Keys - Press the up and down arrow keys to scroll through lists. The arrow icons indicate where you are in a list. In some menus, you can also use the left and right arrow keys to enter and exit different levels of the menu. A menu option that accesses a sub-menu is indicated by the dots (ellipsis) icon after its name. In some menus, the and symbols in the display indicate a value that can be changed by pressing the left and right arrow keys.
	OK - The **OK** key normally matches the function offered by the left hand soft key below the screen.
	PHONE/EXIT - This key is used to exit any menu you are in and return to the appearance buttons menu.
	MENU - This key is used to access a menu for phone settings and information.
	CONTACTS - This key is used to display the various directories (personal and shared) of names and telephone numbers to which you have access.
	CALL LOG - This key displays a record of you most recent answered, missed and outgoing calls. The button is illuminated when you have new missed calls.
	REDIAL - This key is used to either redial the last call you made or to show a list of the last calls you made from which you can select the number to redial.
	HOLD - This key is used to put the call you are currently talking to on hold.
	CONFERENCE - This key is used to start a conference call and to add callers to an existing conference.
	TRANSFER - This key is used to transfer calls to another number.
	DROP - Press the **Drop** key to drop the active call. It can also be used to redirect a ringing call to voicemail. While on a conference call, you can press the **Drop** key to drop a person from the conference call.
	VOLUME - Press + plus or – minus on the **Volume** key to adjust the volume of the incoming call. Separate volumes can be adjusted for the ringer, handset, headset and speaker.

PHONE KEYS cont...

	HEADSET - This key is used to answer and end calls using a headset connected to the phones headset socket. The button is lit when you are connected to a call using the headset.
	MUTE - This key can be used to mute your speech to the currently connected call. The button is lit while mute is active.
	SPEAKER - This key is used to answer and end calls using the phone's handsfree speaker and microphone. The button is lit when you are connected to a call handsfree.
	These keys have two roles: • **Appearance Keys** - These button represent calls that you can make or receive. • **Feature Buttons** - Those key not configured as appearance keys can be used for other functions.

USING YOUR AVAYA 1400 SERIES TELEPHONE

Using Call Appearance When Answering an Incoming Call:

- If you are not active on another call, answer the call using your handset, headset, or speakerphone (see "Speakerphone").
- If you are active on a call already, place the active call on hold (see "hold"), and then answer the incoming call.
- If the call appearance for the ringing call is not displayed on the current Home screen page, use the arrow keys to cycle through the pages. When you locate the call appearance for the ringing call, press the corresponding call appearance button.

Using Call Appearance When Placing Calls:

- Pick up the handset or press the ◁ to use the speakerphone.
- The system will acquire one of the Call Appearance lines. Begin dialing the outside number including any outside digits and/or area code.
- NOTE: When placing a call outside the office, the phone number must be preceded by a "9" in order to access an outside line on the system.

Transfer: Transfer allows you to transfer a call from your telephone to another extension.

To Transfer the current call to another extension:
1. While on a call, press ❲→❲ Transfer.
2. When you hear dial tone, dial the extension to which the call is to be transferred.
3. Do one of the following:
    - To transfer the call without announcing it, press ❲→❲ Transfer again.
    - To announce the call before transferring it, wait for the called party to answer.
4. When the called party answers, announce the call. If the line is busy or if there is no answer press ❲ Drop. Then return to the held call by pressing its call appearance button.
5. Press ❲→❲ Transfer again to complete the transfer.

To transfer the current call directly to another extension's mailbox
1. While on a call, press ❲→❲ Transfer.
2. When you hear dial tone, dial "#" plus the extension number where the call is to be transferred.

3. Press ⟨→⟨ Transfer again to complete the transfer.

Conference:

To add another party to a call:
1. Press CCC Conference.
2. When you hear dial tone, dial the number of the person you want to add to the call.
3. Wait for an answer.
4. To add that person to the conference, press CCC Conference again.
5. Note, if the called party does not answer or does not want to join the conference, press ⟨↓ Drop and by using the keys, locate call to be dropped and press drop key from the display.
6. Repeat steps 1 through 4 for additional conference connections.

Call Log: Calling a person from the call log:
1. Press the CALL LOG button.
2. Scroll to the left or right to view a separate list of all, missed, answered, or outgoing calls.
3. Scroll up or down to select the person or number you want to call.
4. Press the OK button or the CALL soft key.

Call Log: Adding an Entry from the Call Log to Your Contacts List
1. Press the CALL LOG button.
2. Scroll to the number that you want to add to your contacts list.
3. Press the DETAILS soft key.
4. Press the +CONTACT soft key.
5. To edit the name or number, scroll up or down and edit as appropriate.
6. Press the SAVE soft key or the OK button.

Contacts: Calling a person from the contacts list
1. Press the CONTACTS button.
2. Scroll up or down to select the person or number you want to call.
3. Press the OK button or the call soft key.

Contacts: Adding a New Contact
1. Press the CONTACTS button.
2. Press the MORE soft key.
3. Press the NEW soft key.

4. Enter the name using the dial pad. To enter characters using the dial pad:
   a. Repeatedly press the number key that corresponds to the letter or number you want to enter until the letter or number is displayed.
   b. Pause before entering the next characters if the characters are on the same key.
   c. To enter a space, press 0.
5. Press the OK button or the OK soft key.
6. Enter the telephone number.
7. Press the SAVE soft key or the OK button.

Contacts: Editing a Contact
1. Press the CONTACTS button.
2. Scroll to the contact you want to edit.
3. Press the DETAILS soft key.
4. Press the EDIT soft key.
5. Scroll up or down to choose the field you want to edit.
6. Use the dial pad and soft keys to make changes to the contact information.
7. Press the SAVE soft key or the OK button to save your changes.

Avaya Menu
You can use the Avaya Menu to adjust and customize phone settings, select the display language, view network settings, and log out. The Avaya Menu has six sub-menus:

- **Screen/Sound** – lets yu adjust the display brightness and contrast, select your ringing pattern, turn button click sounds on and off, and turn error tones on and off.
- **Call Settings** – Lets you turn the call timer display, visual alerting, and show incoming calls on or off; set the redial option; and set the audio path to speakerphone or headset.
- **Applications** – Lets you turn call logging on an doff as well as turn logging of bridged calls, line calls, and line calls answered by others on and off.
- **Advanced Options** – lets you select the display language, set automatic gain control on the handset and speaker, or initiate a manual backup/restore if you have a back/restore file server. See your system administrator for more information.

Custom Features

CALL PARK: Use to put a call on a special type of hold that allows you or another user to pick up the call at another phone. If the call is not picked up within the se time, it will return (ring back) at the phone that parked it.

- TO SET: While active on the call, press one of the available PARK buttons; a marker appears.
- TO RETREIVE: Press the marked PARK button announced to you **twice**; you are connected to the call.
- *Note:* you may need to press additional buttons to retrieve a call parked to a particular location. See administrator for details.

DIRECT VOICEMAIL TRANSFER: To transfer a call directly to someone's voicemail, press the TRNSFR button, then press # followed by the extension number, and press TRNSFR again.

DO NOT DISTURB: When pressed and activated, all calls immediately direct to your voicemail.

- TO ACTIVATE: Press the "DND" button and a marker appears next to the feature
- TO DE-ACTIVATE: Press the "DND" button again and the marker disappears

*While DND is set, you will hear a reminder tone when you lift the handset.

CALL FORWARDING: When pressed and activated, all calls will be forwarded to the selected destination.

TO ACTIVATE:
1. Press the FEATURES button on your display.
2. Scroll to FORWARD and press SELECT or OK
3. Scroll to FORWARD UNCONDITONAL and press SELECT or OK
4. Choose one of the following options:

a. If no number has been previously stored, enter the number to where you would like calls to be forwarded. Be sure to include a "9" preceding the number.

b. If using a number that has previously been stored, simply select ON and call forwarding will be active.

c. If changing an existing forwarding number, scroll to the stored number and select EDIT.

5. Press SAVE.

TO DE-ACTIVATE:
There are two methods to de-activate Call Forwarding. Choose one of the following methods.

Method 1

1. Press STATUS from the home screen.
2. It will indicate that Call Forwarding is active and show the number to where calls are being forwarded.
3. Select OFF and Call Forwarding is no longer active.

Method 2

1. Press the FEATURES button on your display.
2. Scroll to FORWARD and press SELECT or OK.
3. Scroll to FORWARD UNCONDITONAL and press SELECT or OK.
4. Press OFF and Call Forwarding is no longer active.
