

## Snom D712

HD audio and high-end functionality

## D712

### Key Features

- Wideband audio
- 4 context sensitive keys
- 5 configurable function keys with LEDs
- 4 SIP identities
- IPv6 capable

### High End Audio

The D712 is built from the ground up for HD audio. Its ergonomically designed handset has an advanced speaker and microphone system. By supporting a broad range of codecs, the phone delivers superior, crystal-clear call quality in both handset and handsfree use.

### Intuitive user interface

The D712 features a four-line black and white graphical display. The four context-sensitive keys and an intuitive, user-friendly menu, makes using the D712 easy. Five programmable function keys with built-in LEDs for visual call indication can be configured for a variety of one-touch telephony functions such as speed dial, busy lamp field or presence indication.

### Advanced Features

Using a preinstalled certificate, the D712 supports the latest VoIP security protocols to ensure secure communications. Advanced remote management and provisioning capabilities make the D712 an ideal endpoint for service providers of hosted VoIP deployments. The D712's IPv6 capabilities emphasizes its claim to be perfect in large-scale installations.

Four SIP identities make the D712 flexible to use in demanding environments. The D712 is the perfect phone for everyday business telephony.
