

Gigaset Maxwell 4

Combining the best of touchscreen with traditional keys

Designed for flexible communication, this professional business phone combines a touchscreen with traditional keypad to allow ultimate freedom with up to 38 programmable keys. Using an intuitive touch and swipe interface, the Maxwell 4 is perfect for both desktop users and busy receptionists with its easy to use interface, HD audio and ergonomic design built to the standards of high-quality German engineering. The Maxwell 4 combines function and affordability to create the ideal business companion.

- Integrated Power over Ethernet
- Support of Net provider features via menu
- Internal directory with 1000 entries
- Call waiting / Call active indication
- EHS/DHSG-Headset connection
- USB 2.0 type A

Security by design

To ensure that every business call is kept private, Maxwell 4 benefits from industry standard end-to-end encryption using Secure Real-Time Transport Protocol (SRTP) and Transport Layer Security (TLS). Each unit is further secured with a touch gesture unlock code to prevent unauthorized usage.

Intuitive operation

The 4.3" full colour and high contrast capacitive touch screen makes it easy to access all of the phone's features while ensuring you can always see each caller details from any angle in both desktop and wall mounted modes. Maxwell 4 includes onscreen Busy Lamp Flag (BLF) status that makes calling colleagues or transferring calls a breeze.

Flappable foot and wall mount

Ease of use is further enhanced through the flexible stand design, offering multiple viewing angles and mounting options to deliver an optimum business communication experience. With three different desktop stand positions plus a wall mounting option, the Maxwell 4 is suitable for every location.

Handsfree flexibility

Designed to suit your busy business life with seamless call handling and telephone conferencing delivered via High Definition audio microphones and speakers. For added flexibility, the Maxwell 4 supports both wired and wireless headsets via USB.

Gigaset Maxwell 4

The professional business phone to combine touch and keys
